

# ELMIRA COLLEGE

CLARKE HEALTH CENTER

August 17, 2020

Good Afternoon,

There have been many questions regarding our testing requirements, so I thought I would try to clear some of that up now.

- All athletes will be tested AFTER ARRIVAL to campus, at NO cost to the student. Once we have a more solidified practice schedule, we will notify you for COVID testing dates. (This will be in accordance with NCAA guidelines)
- Junior and Senior Nursing Students NEED TO COME TO CAMPUS WITH A TEST RESULT. You have clinicals within that first week or two and your clinical sites are requiring a test.
- If you reside in one of the states on the NYS travel advisory list, and you are completing the mandatory 14 day quarantine, you DO NOT need to be tested once the quarantine is completed.

As stated early on, we *encourage* everyone to get tested, but it is not mandatory, except for those students outlined above.

I

f you have any questions, please let me know!

Best,

Wendy Fiscus

Nurse Practitioner & Director of Health Services
