

# ELMIRA COLLEGE

OFFICE OF ACADEMIC AFFAIRS

June 3, 2022

## **Sustainability Leaders Wanted!**

We know you're heading out for summer soon, but we want to promote a new scholarship for outside-the-box thinkers who are interested in contributing to the environmental, social, and financial sustainability of the Elmira College community.

Elmira College Sustainability Scholars will receive a \$1,000 award applied to their annual tuition. An Elmira College Sustainability Scholar makes a commitment to the EC community to make sustainability a priority on campus. Award consideration is not limited to specific majors or programs.

In addition to a \$1,000 award, sustainability scholars will have access to a house for office space (the Kelly House, adjacent to the security office, no habitation allowed).

The award will be automatically renewed each year, provided the scholars make progress toward the following:

- Contribute to the planning of the sustainable renovation of the Kelly House
- Planning and executing a sustainable initiative on campus (this can be many things but must be presented and approved by the college's Sustainability Committee for approval before execution)
- Maintaining Satisfactory Academic Progress toward the completion of your Bachelor's degree.

To apply for the Sustainability Scholars award, please fill out the below application (see below link) . Applications received by 6/30/22 will be given priority consideration. A committee will review applications, and the three chosen award recipients will receive notification by 7/14/22.
