

ELMIRA COLLEGE

OFFICE OF CAMPUS LIFE

August 12, 2022

Dear Students,

Based on guidance just released from the Centers for Disease Control and Prevention (CDC), **the requirement that you be tested for COVID-19 prior to returning to campus for Term I is being rescinded.**

The CDC is no longer recommending screening testing of asymptomatic people without known exposures in most community settings.

Therefore, **you are no longer required to get tested for COVID-19, and you will not need to upload your test results prior to returning to campus.** I apologize for any inconvenience this caused any of you, but this new guidance was just released. If you will be living on campus; however, I still do encourage you to take a home test before moving back into the residence halls just to err on the side of caution.

Thank you!
Liz
