

ELMIRA COLLEGE

CLARKE HEALTH CENTER

May 18, 2021

Good afternoon!

Thank you to everyone that took advantage of the vaccine clinic that was held on campus 3 weeks ago. It was very successful and we are grateful to Arnot Health for assisting with that!

For those that received the first of two Pfizer vaccines, it is time for your second vaccine. When you were issued a card at your first appointment, there should be a date and time on the back. This is when you should report to Cowle's Rotunda for your second vaccine. You **do not need to register again**. They have your information on file. Please follow all social distancing and mask guidelines as done previously. Please do your best to arrive as close to your appointment time as possible, this will prevent delays. **PLEASE REMEMBER TO BRING YOUR VACCINE CARD WITH YOU TO THE APPOINTMENT.**

For those who wish to start the vaccine series, please go [HERE](#) and register for a time slot. Please remember if you receive the Pfizer vaccine on campus this week, you **MUST** arrange for the second vaccine at another location in 3 weeks. We will **not** have another clinic for you to get the second vaccine.

Another reminder....When your vaccine series is complete, upload your vaccine card to the health portal to be included with your immunization record. Go to: elmira.studenthealthportal.com and use your EC username and password to log in. Once in, go to the "document upload" tab. Search and select the file you wish to upload.

Thank you so much for helping to keep our campus community safe, we appreciate you!

Best,

Wendy
